PROFILE

Computer Engineering student at the University of Leiria and Oeste, coding since age 15. I build complete applications end to end, focused on the backend (Node.js, Express, PostgreSQL) with React on the frontend. I have internship experience as an IT technician and completed an Erasmus+ mobility in Zagreb. I'm looking for my first professional opportunity as a developer.

PROJECTS

Ironbound Node.js · Express · PostgreSQL · React · Docker

ironbound.pt · github.com/Bruthor2014/workout-tracker

- Multi-gym platform for managing workouts, nutrition and body composition, with dashboards and progress charts.
- Six user roles (member, trainer, nutritionist, receptionist, owner, admin) with role-based authorization and ownership checks.
- JWT authentication with bcrypt, parameterized SQL and transactions (BEGIN/COMMIT/ROLLBACK) for multi-table writes.
- React 19 + Vite frontend with a custom design system, also shipped as an Android app (Capacitor).

EXPERIENCE

Stage Technician Jun – Sep 2025

Concerts for David Carreira and Nemanus

Setup and technical support at live shows, working as a team under tight deadlines.

Intern · IT Technician Feb – Jun 2021 · Oct – Dec 2021

Instituto Politécnico de Santarém

EDUCATION

BSc in Computer Engineering 2022 – Present

Universidade de Leiria e Oeste

Erasmus+ Mobility Oct 2025 – Feb 2026

TVZ · Zagreb University of Applied Sciences, Croatia

Vocational Course in IT Systems Grades 10 – 12

Escola Secundária Dr. Ginestal Machado, Santarém
